

A KI Contributes seminar:

The Heat is On!

Building Resilience to Extreme Heat

Join us for a seminar examining best practices, research gaps and ways forward to shape and evaluate heat adaptation plans in the context of global warming through interactions between universities, health care providers, public authorities and policy makers. The seminar will include short presentations, a panel discussion and a post-seminar mingle.

Time: 26 Jan 2023, 14:00–16:00, followed by mingle

Place: [Samuelssonsalen](#) at KI Campus Solna

Registration: [Click here](#). For more information visit our [website](#)

Speakers and panellists:

[Dr Francesca de Donato](#), climatologist and epidemiologist, DEP Lazio, Italy

[Professor Gregory Wellenius](#), environmental epidemiologist and Director, Center of Climate and Health at Boston University, USA
