Inauguration of AIMES
Center for the Advancement of Integrated Medical and Engineering Sciences

When: Wednesday September 30, 2020, kl. 9.30 – 11.30
Where: Biomedicum, KI Campus Solna or via Zoom

We are happy to welcome you to the Opening of AIMES!

AIMES is a collaborative effort by KI and KTH to promote interdisciplinary research and its translation to societal use.

AIMES offers long-term scientific and financial conditions needed to secure the growth of intrinsically interdisciplinary researchers and students.

Activities at AIMES help to transform investments made in research and education into societal use and economic growth. AIMES serves as an important resource to help achieve the goals described in KI Strategy 2030, KTH Vision 2027, as well as the UN Agenda 2030 for Sustainable Development.

With great pleasure we announce talks from

Ole Petter Ottersen President KI
Sigbritt Karlsson President KTH
Carl Bennet Getinge

The diversity of AIMES activities will be presented, along with its contributions to academic research, education and societal benefit.

A detailed program will be announced closer to the event.

Most Welcome,

Agneta Richter-Dahlfors Ulrica Edlund
Professor at KI & KTH Professor at KTH & KI
Center Director, AIMES vice-Director, AIMES

Register at https://survey.ki.se/Survey/21355

There will be presentations in Biomedicum and live stream via Zoom.
